NASHVILLE:

THE EFFIGY AT WARTRACE. Hessas Furrous: On my return home, a few days ago my attention was directed to an article in the Shelbyville Expositor of the 25th of June, which had been copied from the Nashville Patriot. The article was signed by Messrs. H. P. Cleveland, James L. Armstrong, Jr., James P. Niel and James Phillips, "as a committee appointed by the Know Nothings of Wartrace and vicinity, to investigate the circumstances and facts connected with the hanging of an effigy at that place, on the 21st of June."

The Committee have prepared their report with a view to contradict a card, put forth by me, on the 8th of July and it is of such a character that I cannot suffer it to remain unanswered, and I, therefore, ask for such space in your paper as may be sufficient to set me right before the public. Before referring particularly to that document, I shall state, briefly, the circumstances that led me to publish a card on the subject:

Early on the night of the 21st of June, I arrived at Wartrace, on way home from Nashville, and remained there during the night, contrary to my wishes and best efforts. On the morning of Sunday, the 22nd, I saw the chigy hanging to the pole, where it remained for some length of time. I heard Cleveland, and others, condemning it, and saw him and others take it down. The label was read in my hearing, and freely spoken of. The clothes were examined-s letter was found in one of the pockets, which was addressed to a notorious Know Nothing of last year; and some persons said they would be willing to swear that the label on the breast of the effigy, was in the hand-writing of the same individual. At Shelbyville, afterwards, I heard the facis contradicted, and heard it denied that any effigy had been found hanging at Wartrace. Being an eye-witness to the facts above stated, I told several what I had seen. After awhile I learned that it was still denied; and I felt constrained to publish the card, in confirmation of my previous statement. In that card I spoke only of "certain Know Nothings" present at the time the effigy was hanging, and made no allusion to that party. I pronounce therefore, all charges, insinuations and hints, contained in the report, to the effect that I was present when the effigy was put up, or that I concerned myself in discovering the authors of it, by examining the clothes, or otherwise, as abvolutely false, and throw them back in the teeth of the vile

calumniators who issued them. But let us examine the report itself, to see how far it donies or disproves the facts alleged in the card: Do they deny that any effigy was hung up at Wartrace, on the morning of June 22, 1856? No; they admit it. Do they deny that it had a label across the breast? No; but they say the words were not "Buchanan dead!" but simply "Buchapan," Do they deny that the clothes were identified? Not at all, for they profess to know the owners of the coat and pantaloons. Do they deny that there were some Know Nothings present when it was discovered and taken down-that they professed judignation, and that "all was soon put to rest" after discovering the ownership of the clothes? Not they—the report is as silent as the

grave on this point. What, then, do they deny? They deny that the making of the effigy was in ended as an insult to James Buchanan, the Democratic is didate for the Presidency; and say, on the authority of one of the parties, (b. a hether the Know Nothing or the Black Republican, they to not inform us, that it grew out of some dissatisfaction, towards a retailer of rat medicines, and other marvelinus nostrums. Very probable, is it not ! An indian to as a retailer of nontrums! Shades of all rat catchers terrets, terriers, and cats when, in all time, was a seller of rat medicines so honored? Where, but at Wartrace, were nostrum venders elevated in effigy; to appeare the andignation of an injured peo-

Whilst the notorious "Wartrace, Effigy-hanging, Investigating Committee" deny that the hanging was the act of the party, (a thing never charged), they have arrived at the conclusion, that three persons were engaged in it-a now Nothing, a supporter from Shelbyville. That an Irishman was concerned in it, I have heard most vehemently dealed; but I think it more than probable that the effigy was the joint work of representatives from two factions, working for a common pur- at large. pose—the defeat of Buchanan and the Democracy. Why should not a Knew Nothing and a partizin of Fremont affiliate in effigy-hanging, to show their unity of purposa, and shadow forth their future re-union! If the hanging of Buchanan in effigy was resolved upon in any quarter, or by any persons, however few, what more appropriate location than Wartrace, and what more belitting actors in the scene than representatives of Know Nothingism and his

twin, Black Republican, brother ! Much the largest portion of the report of the "Wartrace effigy committee" is taken up with uncalled for references to my place of residence, and my name; and connected with them there are some attempts at wit, which may be considered rather trashy for the joint effort of four shrewd grounds should be visited by the citizens of Nashville, and for that purpose an Omnibus will leave the office of Linds ley & Crockett, at a o'clock, on Tuesday atternoon, the bound brethern to "beware of carrage and blood" bound brethren to "beware of carnage and blood."

The people of Mulberry decline the distinction, and yield the palm of "carnage and blood" to the famous fields of Louisville, Washington, and New Orleans, where "Americans ruled America," and of which Cleveland & Co., no doubt, feel proud! In addition to this, Mulberry yields to Wartrace, the distinguished honor of hanging an American gentleman and statesman to a pole erected in the name of liberty ! In truth, we, of Mulberry, are behind the times, as we certainly are behind the manners and breeding of the age; but there is no telling what advances we might make in blood, carnage, and effigy-hanging at Mulberry, if we had a small importation of Know Nothings from a certain "crangfish depot" on the Nashville and

Chattanooga railroad. The committee seems very much amused at my name, which I admit is "Alexander;" but they are mistaken in supposing that I am kin to, or claim by descent, the wondrous qualities of the Macedonian. Similarity of names frequently exist without consarguinity of blood. It is fortunate for some persons that it is so. I once knew a man by the name of Armstrong who was a tory at heart, and a Federalist by practice, yet he was no kin to James L. Armstrong, Jr., of the "effigy committee," I knew another man by the name of Cleveland, who was convicted of swindling; but I am sure he was no relative of H. P. Cleveland, of Wartrace. And I have heard it said that a man by the name of Neil was turned out of the church for lying, and that one by the name of Phillips, was connected, in some way, with the abduction of Morgan; but I am perfectly satisfied that neither of them could have been in any

way connected with the authors of the Wartrace effigy Leaving the public to judge whether any effigy washing up at Wartrace,-if so, by whom, and whether it was intended as an insult to Buchahan, of Pennsylvania, or a retailer of rat medicines-I again assert, that I am responsi ble for what I have done and said in this matter. I said so in the first instance, and I repeat it, not because I am a namesake of Alexander, of Macedon, nor because I anticipate "carrage or blood," but to be in fashion with these | changed. who have proclaimed themselves the "phiting phoths" of

One word, in conclusion, as to the persons by whom the effigy was made, and the moving cause for it. The Committee say "it may have been done by individuals excited, perhaps, by Democratic liquor." Perhaps it may. It has een held by distinguished psychologists and phycologists that liquor only brings into activity feelings and passions that lie dormant, or are kept in control by the sober judg ment. If this be so, we have in the case supposed, a strikirg manifestation of what lurks in the bossom of some of the followers of "Sam," and most followers of Fremout. The Committee might profit by the lesson, for, if Democratic liquor so relieved a couple of characters, by driving to the surface the corruption festering within, it would be well for each member of the "Wartrace effigy Committee"

to swallow a quart of good "old Lincoln," with a view to the purification of their systems. Yours, G. W. ALEXANDER. Mulberry, Tenn., August 2, 1856.

which we clip from the Ottawa Free Trader:

"Having tried unbaccessfully sundry highly recommended 'hair touics' on our own half denuded crown, we had about lost all confidence in nostrums of that sorts until a week ago we met a distinguished politician of thin State, whom we had seen three years ago with thin hairs and as 'gray as a rat,' but now boasting as fine and glossy a head of hair as one could wish. We demanded the secret of his improved appearance, when he readily accounted for it by ascribing it to the virtues of Prof. Wood's Hair Restorative. We shall try that next.—Rock River Democrati. HOW DISEASED ACTION BECOMES ESTABLISHED AND THE BLOODIMPURE.

A great error has long prevailed in the minds of medical men, "That impority of the blood is the cause of diseased action." This is a serious mistake. It is a disturbance of the directation, and the establishment of diseased action, that causes impurity of the blood.

The R. E. Heory h lds the truth of the above maxims, for if a person be in a state of perfect health, each artery and vein must carry to and from the heart its allotted portion of blood, and when any set of vessels refuse (be the cause what it may) to carry their proportion, the current of blood becomes dammed up; in other words, a congestion takes place, giving pain to a greater or less extent. Here, then, is the beginning of diseased action, which, if not relieved, will soon run into infammation, and the disease become established. Diseased action being once established. then, is the beginning of diseased action, which, if not re lieved, will soon run into inflammation, and the disease become established. Diseased action being once established, the blood becomes impure, and i e regularity of action on the part of the liver, sain, bowels, &c., is sure to be interrupted, and the general system, by sympathising with the local complaint, becomes involved in the difficulty. That this is the true state of the case, let any one call to mind his symptoms on catching cold. The local difficulty may be a sore throat, which is a congestion of the blood, amounting sometimes to an inflammation about the throat, owing to previous deranged state of the circulation; and he will remember that his bowels become costive, his liver deranged, or his skin dry and feverish, his head stopped up, pains and aches in his bones, joints, down the back, head aches, discharge of water from the eyes and nose, with many other unpleasant and painful symptoms. Had he used Radway's Roady Kelief when the congestion was setting in, as an application to the throat, and swallowed a dose of the Regulators, he would have broken up the congestion, and restored the regularity on the part of the liver, skin, bowele, dec., which had been broken in upon by the effects of the sore torout. Regularity being again established, the impurs, blood is soon purified, and the circulation again equalized and the health restored

RADWAY'S REGULATORS Possess this great power of EQUALIZING THE CIRCULATION, And regulating all the organs of the body to a natural and healthy oction.

PALSKY—RIBUMATISM.

Wardle, and Macleian. READ HER LETTER. Mesers. Radway & Co.—I tried your Ready Relief, and had my joints rubbed with it, and I never foit pain after the first ten minutes I was rubbed with it up to the pre-ent time. Stre, I do no know what is compare it to but a charm; for it is a mystery to me. I was a cripple for two years, and had so the proper use of my limbs for three years. I was worn down to a skeleton. I then commenced the use of your Ready Relief, Resolvent, and Regulators. The pain left me in ten minutes, and I began to gan strength very fast, and could walk with ease in a few weeks. Before I heard of your remedies I was taken to Dr. Paraer, Dr. Reess, Dr. Wardie, Dr. Macleian, and many other physicians in this city, I cannot now remember. I was completely pulled to pieces by thom. My constitution was completely brokes up with medicines that did me no good. I could not put a foot to the ground nor pick up a pin. I was lifted and carried up and down stairs like an infant; and now, thank God? by the use of your remedies, I am anstrong as ever. I had the common rheumatian—inflammatory and chronic—and the palsy. 1, Jepha Gardinier, of the above place, do publish; that for many years I have been sillicted with Rheumstian, and on the evening of December 80th, 1855, while walking in my yard, i feit with great violence on the ice, bruising the knee pan very builty. I further certify, that on the above day Mr. John J. Benedict, a travelling agent of Radway & Co., arrived at this places, and hearing of my heavy fall and the terrible complaint that afflicted me, recommended me to apply Radway's Roudy Reits', which I did, and in a very short time the pain ceased, the swelling abated, and I am now ashe to walk without the use of my cane, free from pain. I have tried several other remedies, but found no relief. In cases or extreme pain, Radway's Ready Relief is ar preferable to all other remedies. If any one doubts the truth of this cordinate, let them call on me at my residence, or write to me at Dresden, Tenn., and I will give them full information.

EPPTHA GANDINIER.

For years Mr. Gardinier had suffered the torturing pains of Rheumstiam. He was unable to walk witbout the ald of a stick. On the 20th of December he first tried the R. R.

of Sheumatism. He was unable to walk without the ald of a stick. On the 25th of December he first tried the K. Relief. On the 31st necould walk without aid and free from FEVER AND AGUE.

Radway's Ready Relief and Radway's Regulators are positive curatives for Ague and Fever. Let those afflicted take from two to five of Radway's Regulators overy night and a tea spoorful of Ready relief in water, on rising in the morning, and twice during he day—those will soon free the system from the poison of ague.

How the R. P. K. Keinedies restore consumptives to health, atops the ravages of decay, heats elects in the lungs and throat, cares as thma, broughtus, chronic coughs, and all diseases and complaints of the throat, itngs and chest. Persons who have been troubled with chronic sure throats, tabercies in the image, broughtus, or glandaiar affections, are informed that the E. R. K. Remedies will care them of these terrible diseases on the same principle. Let the lizedy Kellef be applied externally on the chest and around the throat. This will effect an important and wenderfully headical result, it will get up a powerful counter-irritating order, and withdraw from the gisods of the throat all concested blood that may interfere with the respiratory organs. Persons troubled with asthma, hard and difficult breating, sharp pains when taking a long breath, will find an immediate relief after an application of Haiway's Ready Relief, is cases where the image are discussed, we give Hadway's Hesolvest. The action of this medicine resolves away the discussed deposit. It heals all ulcers, and removes tabercies. We have known persons, who had no idea of ever rising from a sick hed, to be restored to sound health with not a particle of consumptive material in their bodies to hasten decay. Radway's negulators, in these cases, teep the system regular, and equalize the circulation of the blood. FEVER AND AGUE.

TO THE PUBLIC OF THE UNITED STATES.

An adverusement of Mr. Un'OLPH: WOLFE, intely published, as I suppose, intended for the protection of his Schiedam Schapps against counterfailers, has come under my observation, and being engaged in the manufacture of E hiedam Schapps, were I to let it pass without notice through this medium, I might be considered among those he decominates "Protes and Franders of Protes," but the immense patronage and success that has attended the sale of the article manufactured by me, and the opinion of competent judges as to its qualities as a beverage and its medican virtues, procludes the possibility of the idea that I am included among those he designs to imprign. No doubt he bels aggrieved at the depreciation of the sale of his Schnapps which is manifest to all, since mine has been brought in competition with his. No only have I succeed in competiting with him in quality, but the constant and increasing demand of my article, has enabled me to furnish it at a less price than he can, or doce—say \$2.00 in the dozon. And furthermore, he will soon become satisfied that his daution to the citizens of the "Southern and Western States" will avail him nothing as far as I am concerned, for the character of my Schiedam Schapps is too well entablished in those States, to be injured by any such invidious publication.—The motive of his a vertisement is obvious to every one, and feeling well satisfied that all such missies thrown at me by him will fail harmless at my fact, I will here, for the satisfaction of the public, publish a copy of my Patent Right, entered in the Southern District of New York, on the 18th day of December, 1854:

And I take pleasure on this sectation to tender my sincers thanks to the publicin general, and to my triands in particular, for the kind liberalit, with which they have patronized me from my commencement of this enterprise; and I assurathem, that I shall continue to provide them always with a genuine and superior article of Schiedam Schnapps.
